

PRODUCTS CATALOGUE 2022

ABOUT US

CORTECO is a Malaysian-based company that specializes in producing high-quality lubricant products. Our blending plant is designed with flexible production facilities and all the relevant logistics to cater to the export market.

CORTECO is dedicated to expanding and maintaining business and customer relationships by providing professional services, creativity, and reliability.

We prioritize our customers and strives to be their first choice as a reliable fuel provider, earning the reputation as a trusted "Brand of 1st Choice".

VISION

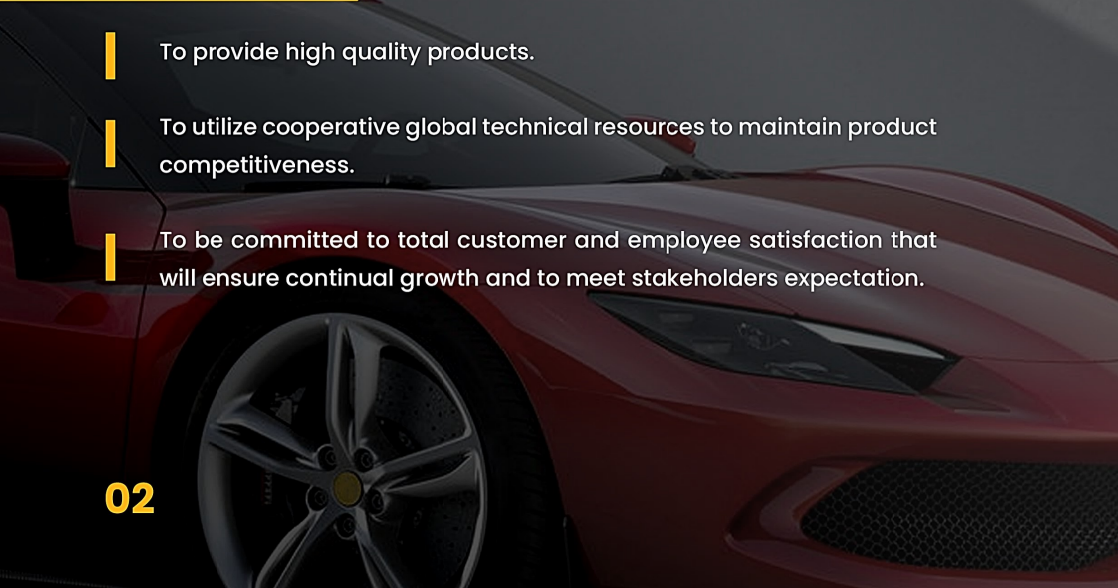

The vision of CORTECO is to become the most efficient and highly-regarded supplier of lubricants worldwide.

MISSION

To provide high quality products.

To utilize cooperative global technical resources to maintain product competitiveness.

To be committed to total customer and employee satisfaction that will ensure continual growth and to meet stakeholders expectation.

OUR PRODUCTS

PACKAGING

GREATER EFFICIENCY

Our containers require less warehouse and shelf space

EASY-TO-POUR DESIGN

The design of the container cap allows for easy pouring of the engine oil.

INNOVATIVE & ERGONOMIC LINE

Modern packaging with a lighter and ergonomic design makes it easier to use and hold

PRODUCT DESCRIPTION

Product Name, Viscosity Grade, Specification and Packaging Size

PACKAGING QUALITY

Our containers have sufficient strength to protect and prevent packaging degradation

OUR PRODUCTS

ENGINE OIL

CORTECO

FULLY SYNTHETIC LUBRICANT 5W40

The most robust and durable solution, created to withstand the intense heat and pressure produced by modern gas and turbo diesel engines. It has been engineered to provide maximum protection and performance in these demanding conditions.

CORTECO

SEMI-SYNTHETIC ENGINE OIL 5W30

High-performance engine oil designed to extend the life and maintain the effectiveness of exhaust emission control systems in passenger cars.

CORTECO

SEMI-SYNTHETIC ENGINE OIL 10W40

Its shear-stable synthetic base oils and high-quality anti-wear additives provide outstanding protection in high-temperature conditions and deliver dependable performance throughout the long drain intervals recommended by European manufacturers.

SPECIFICATION

API SP / CF, ILSAC GF-6A

SIZES | 1L | 4L | 7L | 18L | 200L

CORTECO

SYNTHETIC BLENDED LUBRICANT 10W30

Premium multigrade engine oil designed to keep engines clean by preventing sludge build up and providing wear protection. It helps to extend your engine's life with premium quality base oil and antiwear additives.

SPECIFICATION

API SP / CF, ILSAC GF-6A

CORTECO

ENGINE OIL 15W40

Reduce wear and increase the lifespan of the engine by providing lubrication, hindering harmful deposits, and defending against rust and corrosion, especially in tough operating conditions.

SPECIFICATION

API CF / CH-4

CORTECO

SYNTHETIC BLENDED LUBRICANT 20W50

formulated to adapt to a range of heavy-duty engine technologies and operating requirements, offering physical and chemical protection for optimal performance.

SPECIFICATION

API SM / CF

SIZES | 1L | 4L | 7L | 18L | 200L

CORTECO

SYNTHETIC BLENDED LUBRICANT SAE40

It is a monograde engine oil with few additives that is based on mineral oil. During operation, it creates an oil mist that lubricates each lubrication point that isn't supplied with oil via oil splash lubrication. Excellent emergency lubrication is ensured by its great adhesive power.

SPECIFICATION

API CF / SF

AUTO

TRANSMISSION FLUID

CORTECO

ATF DEXRON III G

Protects the transmission system against wear, provides optimal friction performance for smoother gear shifts. Increased stability to physical deterioration and outstanding stability to oxidation allow the retention of initial performance in extended service intervals.

CORTECO

ATF SP III

Formulated with carefully selected components to provide effective wear protection and optimum friction characteristics to extend the transmission life. Anti-shudder performance to avoid vibrations on engine fly wheels, hence, maintains smooth gear shifts.

SIZES | 1L | 4L | 7L | 18L | 200L

OUR PRODUCTS

AUTO TRANSMISSION FLUID

CORTECO

ATF TYPE IV

Protect against premature wear and tear on transmission parts. Robust protection in high loads and guarantees a reliable and smooth operation of transmission system over the fluid's lifetime.

CORTECO

ATF WS

Low viscosity fluid for automatic transmission with or without slip controlled lock-up clutch system. ATF WS provides full protection to all parts of the transmission system and guarantees a reliable performance even in high loads.

CORTECO

CVTF

Formulated to provide excellent torque transfer, superior wet clutch performance, and metal on metal friction protection to help maximize service life and avoid costly repairs. Extend the life of your CVT and keep it operating at peak performance with Valvoline Continuously Variable Transmission Fluid.

SIZES | 1L | 4L | 7L | 18L | 200L

OUR PRODUCTS

GEAR OIL

CORTECO

GEAR OIL 80W90

offers high-load protection, leading to longer oil and equipment life and reduced maintenance costs. It is compatible with conventional and synthetic gear lubricants, and can be used for various applications.

CORTECO

GEAR OIL EP90

Formulated for performance beyond that possible with conventional gear oil. It offers superior gear and bearing protection, better friction and heat reduction, increased efficiency and extended service life.

SPECIFICATION

API GL-4

CORTECO

GEAR OIL EPI40

Engineered for high-demand applications, including trailer towing, heavy hauling, 4 X 4 (4WD) off-road driving, commercial use and racing. Protects gears and bearings from scoring and wear. Excellent cold-flow properties. Outperforms all conventional gear oils. Recommended for all types of vehicles.

SPECIFICATION

API GL-5

SIZES | 1L | 4L | 7L | 18L | 200L

OUR PRODUCTS

BRAKE OIL

CORTECO

BRAKE FLUID DOT 3

Super heavy-duty brake fluid helps ensure effective braking performance and prevents problems, with improved resistance against "Brake-fade" at high temperatures of up to 400°F for both drum and disc brakes.

CORTECO

BRAKE FLUID DOT 4

Super heavy-duty brake fluid helps ensure effective braking performance and prevents problems, with improved resistance against "Brake-fade" at high temperatures of up to 450°F for both drum and disc brakes.

SIZES | 350ML | 750ML

STEERING / HYDRAULIC OIL

CORTECO

POWER STEERING FLUID

Formulated to protect the power steering system against wear and pump breakdown as well as other components of the power steering system.

CORTECO

HYDRAULIC OIL AWS68

It is premium quality, high viscosity index and ashless hydraulic oils made from selected hydro-treated base stocks which made with highly shear stable viscosity modifier and advanced anti-wear additive.

PRODUCTION

CORTECO PETROLEUM produces and packages its OEM engine oils in Malaysia and distributes them to its clients all over the world. To make sure that our products fulfill international standards at every stage of production, we have specialized laboratories that analyze raw materials, intermediate products, and final products.
